- Tea is the most widely consumed beverage in the world next to water, and can be found in almost 80% of all U.S. households.
- 4 out of 5 consumers drink tea, with millennials drinking the most.
- Served hot or cold, tea contains no sodium, fat, carbonation, sugar or gluten. It is virtually calorie-free!
- Tea can help lower stress and is high in antioxidants. Some studies suggest that it may enhance the brain's cognitive functions, lower blood pressure, and slow down the aging process.

TEA SUPPLIERS

We work with the best tea importers, blenders and merchants in the world. We offer the best ingredients from Sri Lanka, India, Africa, Japan, South America and Australia. Blended and packed in the United States, we ensure the highest quality at the best price.

TEA SACHETS

Our signature Tea Sachets are made of a plant based material, making them safe for you and safe for the environment. Their pyramid shape allows room for the tea leaves to expand, releasing more flavor per cup. Each Tea Sachet makes up to 2-3 cups of tea.
