

## ABOUT US

A little water and some shaking is all it takes for the Negg® hard-boiled egg peeler to work. It's a Made in the USA kitchen hero that sleekly conquers a dreaded chore.

Maker, Bonnie Tyler, signed up to bring deviled eggs to a party and, after a failed attempt at peeling, showed up empty handed instead. After some prototyping and research at her local library, she found a solution.

Together with co-inventor, Sheila Torgan, the team combined the elements of industrial peeling (i.e. vibration, movement, and water) to create something small, portable, and easy to use at home. That's how The Negg® egg peeler was hatched.

As REAL SIMPLE Magazine noted,  
"This miracle hard-boiled egg peeler is the gadget we never knew we needed."

Not resting on the success of one product, the team continues the hard work of developing new and innovative products. Their Negg Deviled Egg Seasoning Mixes, available in 4 delicious flavors, Classic, Cajun, Curry and Smoky Ham, not only make perfect deviled eggs in no time, but these proprietary blends can also be added to any salad, blended in a sauce, marinade or dip.

The seasonings were winners of the Specialty Food Association's sofi™ Best New Product Award in 2021.

All Negg® Products  
are proudly

MADE IN

U. S. A.

Where quality matters.
